

New Pig

# Stores & Markets

CLEANER. SAFER. BETTER. | JUNE 2025

## ✗ ADA 302.2

Carpet can significantly increase the force needed to propel a wheelchair

## ✗ ADA 302.1

Walking surfaces must be stable and remain unchanged by applied force

## ✗ ADA 302.2

Carpet must be securely attached so it does not shift or buckle

## OLD-SCHOOL MATS COULD TRIP YOU UP WITH AN ADA VIOLATION.

Trust your floor safety to PIG —  
our mats and runners comply with the  
Americans with Disabilities Act (ADA)!

PIG ADHESIVE-BACKED  
GRIPPY FLOOR MAT

more  
inside!

# The ADA requires that your walking surfaces are **STABLE, FIRM** and **SLIP RESISTANT.**

Walking surfaces must meet a list of requirements from the Americans with Disabilities Act (ADA) to minimize trip hazards and keep floors safe. And for years, facility managers have used "what everyone else used" to try and do their part. But old-school mats are known to cause more problems than they solve, and they might even be putting you at risk for ADA violations (see inside our back cover).

## PIG Grippy Mat and HoofTrax Runners are perfect for the job!

Ready for a better solution? Get a grip with our adhesive-backed mats and runners, featuring proven stick-and-release technology. They always lay flat and stay flat, giving individuals with wheelchairs and walking aids the safest possible surface to navigate.

**PIG Grippy Mat** is best for areas where you want to absorb water and other liquids, and **PIG HoofTrax Runners** are ideal when you want traction without the absorbency. Either way, you're getting the most advanced floor safety solutions on the market — they're stable, firm and extremely slip resistant to meet and exceed ADA requirements.

# 40 YEARS

1985 — 2025

**'98 Pigalog Throwback:**  
Our German Shorthaired Pointing Pig never failed to find leaks, drips and spills.

## Pigging out on workplace messes since 1985.

Back in '85, our founders ran a small, industrial cleaning business and needed a better way to clean up the oil leaking from machinery. They were sick and tired of dealing with clay; it was a mess to clean up the mess. After many failed experiments, they filled their wives' pantyhose with corncob — the first PIG Sock was born and the contained absorbents revolution was alive!

## What's up with that funny name?

Our first product testing area was nicknamed the Pig Pen where our prototype looked like it was wallowing in slop. People kept calling them "pigs," and the name stuck. We tried to name our company "Pig Corporation," but it was already registered to a local farmer. We added "New" to our name, and the rest is history.

## Made right here in Tipton, PA.

Four decades later, we're still making our own absorbents in the same small town where we started. PIG products have reached more than 300,000 facilities in over 100 countries, on all 7 continents! So give us a try — we're always happy to help you find cleaner, safer, better ways to work.

# WE PIG PROMISE TO KEEP CUSTOMERS HAPPY!

## Helpful Service — Get through to real people, really fast!

At New Pig, you'll never have to wade through phone menus or repeat yourself five times to a voice recognition robot. From our offices in Tipton, PA, an actual human being says *Hello* and asks how we can help! 96% of calls are answered within 3 rings and 99% of chats connect within 9 seconds.

## Reliable Shipping — We bust our tails to deliver your stuff.

Thanks to our speedy warehouse crew and massive in-stock inventory, your order is shipped as fast as humanly possible. And when you order using Autoship, you'll never run out of your favorite PIG products! ([newpig.com/autoship](http://newpig.com/autoship))

## Risk-Free Shopping — Every penny back. No strings attached.

We stand behind 100% of our products, 100% of the time. So if you buy something and it's just not working out, we'll refund every single penny, including taxes and freight. We'll even schedule and pay for the return shipping!

## We're proud to partner with MasonWays for quality plastic solutions.

Built tough since 1983, MasonWays has grown to become the largest producer of plastic dunnage racks and display bases in North America, as well as a leading manufacturer of products for the grocery and convenience store market.

# DURABLE SOLUTIONS FOR EVERY AREA

Entrances

Keep floors clean and safe with adhesive-backed mats that absorb dirt and moisture.

Back of House

A wide variety of dunnage racks that are designed to be rugged yet easy to clean.

Front of House

Everything you need to organize and display inventory — merchandisers, beverage bases, pallets and much more.

*"We have used Grippy Mat for a couple of years in our supermarket, cancelling our rug rental program, and are quite satisfied."*

— Lee, Grippy Mat Customer

# OF YOUR STORE — INDOORS AND OUT

## Outdoors

All-weather products for displaying merchandise, spill response and advertising your business.

## Beverage Stations

Adhesive-backed mats absorb spilled liquids to prevent slipping hazards.

## Fuel Islands

Keep a clean, professional appearance with waste receptacles, windshield centers, bollard covers and more.

If you're not happy with your New Pig purchase, we'll refund every penny, including taxes and shipping. Even the return freight is on us!

# GRIPPY MATS

## WHERE WILL YOU STICK IT?

John B.  
— Product  
Developer

### Get a grip with our adhesive-backed mats and runners!

#### Grippy Mat — the world's first

Our exclusive adhesive is formulated to perform in the wettest conditions and will never disintegrate, delaminate or leave a gooey mess to clean up.

#### The right amount of stick

Proven stick-and-release technology keeps mats in place without shifting but pulls up easily without leaving residue.

#### Easy cleaning

It's the only adhesive that stands up to heavy traffic and cleaning with a broom, vacuum, mop, floor scrubber or carpet extractor.

You don't have to move Grippy Mat to clean your floor. Leave it in place and save time!

#### PIG GRIPPY MATS

VS

#### RUBBER-BACKED MATS

**New Pig Adhesive-Backed Mat Notice:** New Pig Adhesive-Backed Mats are formulated to work with most common hard-floor surfaces. New Pig Adhesive-Backed Mats are not intended for use on wood flooring with stains, finishes, or coatings. New Pig Adhesive-Backed Mats have non-permeable barrier layers to prevent liquid pass-through & as such, are considered to be non-breathable & may not be suitable for use on surfaces that require air curing, including, but not limited to, newly poured concrete or recently applied coatings, sealants & finishes. All adhesive mats have some potential to leave residue, lift and/or discolor 1) surface finish, 2) surface coating, 3) paint, 4) loose or pre-damaged tiles. For these reasons & others, if you have questions about the suitability of New Pig Adhesive-Backed Mats for your application, test a small section of mat in a discreet or non-critical area before using on larger areas. New Pig Adhesive-Backed Mats are designed for use for up to 3–6 months in commercial and general public environments, depending on conditions & traffic patterns. Regardless, New Pig Adhesive-Backed Mats should be replaced immediately if they show signs of wear or damage & should always be replaced in commercial and general public environments no later than 6 months after installation.

CUSTOMER ASSUMES THE RISK THAT A NEW PIG ADHESIVE-BACKED MAT MAY DAMAGE OR ALTER CUSTOMER'S EXISTING FLOORING OR FLOOR COVERING. NEW PIG PROVIDES NO WARRANTY OF FITNESS FOR A PARTICULAR PURPOSE & NO WARRANTY THAT THE USE OF AN ADHESIVE-BACKED MAT WILL BE ACCEPTABLE FOR USE ON CUSTOMER'S FLOORING OR ANY OTHER SURFACE. NEW PIG SHALL HAVE NO RESPONSIBILITY FOR & CUSTOMER HEREBY RELEASES & DISCHARGES NEW PIG FROM ANY DIRECT, INDIRECT, INCIDENTAL OR CONSEQUENTIAL DAMAGES TO OR RELATED TO CUSTOMER'S FLOORS, FLOORING MATERIAL, OR ANY OTHER SURFACES IN CUSTOMER'S DWELLING OR FACILITY. CUSTOMER IS SOLELY RESPONSIBLE FOR DETERMINING THE FITNESS & APPROPRIATENESS OF THE USE OF A NEW PIG ADHESIVE-BACKED MAT IN CUSTOMER'S DWELLING OR FACILITY.

# ULTRA-DUTY • CUSTOM PRINT • INDUSTRIAL • RESTROOM

## Exclusive Benefits of PIG Grippy Mat

### CREATES SAFE FLOORS

Stays put without shifting to add traction in entrances, aisles and other wet areas.

### ENHANCES APPEARANCE

Create continuous runs without coverage gaps, overlaps or out-of-place mats for safe floors that look good.

### OUTLASTS TRAFFIC

Durable mat construction withstands cart wheels and repeated foot traffic for up to 12–16 months.

### FITS ANY FLOORPLAN

Customize your layout for a seamless look; Grippy Mat cuts to any size or shape for a perfect fit.

### REDUCES COSTS & CLAIMS

Eliminates wasted labor while minimizing workers' comp and liability incidents from slips, trips and falls.

## Eliminate Risks with the Mat that Sticks

SHIFTING

TRIP  
HAZARDS

GAPS

## ULTRA-DUTY

Our toughest Grippy Mat creates safe floors and stands up to your highest traffic areas.

See pages 8–9

## CUSTOM PRINT

Promote your brand with logos, imagery and text in high-definition printing!

See page 10

## INDUSTRIAL

Perfect for lining areas next to and around equipment and workstations.

See page 54

## RESTROOM

Keep restrooms clean and appealing with antimicrobial mats that fight odors.

ADHESIVE  
BACKING!

**ADHESIVE  
BACKING!**

## ULTRA-DUTY GRIPPY MAT

Use our toughest adhesive-backed mat for your highest-traffic areas.

Put Ultra-Duty Grippy Mat to work in entrances, aisles, transition areas and walkways that see tons of traffic. From boots to forklifts to whatever, our most durable mat can handle it all. Create as much walk-off coverage as you need — without dangerous gaps or overlaps — to help keep floors dry and prevent slips, trips and falls. Ultra-Duty Grippy Mat stands up to aggressive floor care schedules, so run your vacuum, mop, broom or floor scrubber right over it.

### A CLOSER LOOK

Needle punched and heat fused polypropylene delivers extreme durability. Protective layer retains liquids. Adhesive backing holds tight but peels up easily.

### AVAILABLE COLORS

If you're not happy with your New Pig purchase, we'll refund every penny, including taxes and shipping. Even the return freight is on us!

Clean in place with mop, broom, vacuum or floor scrubber.

## PIG® ULTRA-DUTY GRIPPY MAT

Roll out the exact amount of coverage you need, or choose precut mats in standard sizes that don't require cutting. Heavyweight mat offers the highest absorbency for the wettest problem spots in your facility. For use on hard floors like concrete, tile, laminate and more.

GRP36500

## Stands up to 30,000+ tramplings per week!

When we say Ultra-Duty Grippy Mat is made for high-traffic areas, we're talking upwards of 30,000 people per week. This number can help you gauge which Grippy Mat you need at your facility. In addition to all that foot traffic, it's also built to hold up under heavy wheel traffic from dollies, carts and even forklifts.

★ = Best-Seller

### PIG CUSTOM PRINTED & LOGO GRIPPY MAT

## Get Grippy Mat with custom printed logos, promotions and messaging.

Provides all the safety features and convenience of Ultra-Duty Grippy Mat (page 8), with the added benefit of high-definition custom printing. Much more affordable than putting your logo on bulky carpet mats, plus Ultra-Duty Grippy Mat gives you the flexibility to change your look and/or messaging any time you want. Printed with UL Greenguard Gold Certified ink to meet rigorous chemical emission standards. Available in standard pre-cut mat sizes or ask about custom sizing!

State-of-the-art digital printing on a smooth, flat surface produces sharper, more detailed images. Print on carpet mats can distort over time as the pile crushes.

### EASY ORDERING & SETUP

Custom sizes available and no minimums! Call 1-800-HOT-HOGS® for details.

### PERFECT FOR

- Company Logos
- Customer Rewards
- POP Messages
- Buy Case Callouts
- Seasonal Messages
- Wayfinding

# Meet MasonWays, a featured partner of New Pig!

MasonWays was established in 1983 to find an alternative to metal racks and wood pallets for the storage of food. Safer, more sanitary racks were developed using rotational molding of plastics, and they surpassed expectations. MasonWays has since grown to be the largest manufacturer of plastic dunnage racks and display bases in North America, as well as a leading manufacturer of products for the grocery and convenience store market.

**Add color to Dunnage Racks, Merchandisers and more to meet food segregation regs or match your brand.**

Color-coding is an important part of food safety because it helps to prevent cross-contamination, and it can designate different work zones and processes. You can also use color to amplify your brand presence. The MasonWays products on pages 12–28 can be ordered in the five stock colors shown at right, or we can create a custom color if you send us your Pantone® color number or other sample. Call us at 1-800-HOT-HOGS® for more information.

**NOTE:** We use fully stabilized polyethylene and color pigments suited for outdoor applications. These colors printed on paper are an approximation of the actual pigmented colors. If color is critical, you may request a pigmented color chip from us.

DUN1003

## DUNNAGE RACKS

**Built tough since 1983, you won't find a larger selection anywhere.**

Back-of-house storage racks feature heavy-duty construction with advanced technology and soft edges to help keep workers safe. Flow-through designs promote maximum air flow that inhibits bacterial growth. Polyethylene material resists detergents and solvents for easy cleaning. Approved for industrial refrigerators and coolers; rated to temperatures of -20°F to 212°F. NSF listed, FDA and USDA approved.

- **PolyMight Racks** are best-sellers for reliable everyday performance
- **Spectrum Racks** are extra-heavy-duty for demanding environments
- **Slim Jim Racks** feature a smaller footprint, also ideal as display base

**HELPS YOU COMPLY** with FDA Food Code, HACCP Plans and more

## MERCHANDISERS

**Give in-store displays a lift and meet Food Code with our durable bases.**

6"H Merchandisers protect your product against splashes and contamination to help meet FDA Food code while creating a clean, attractive, safe base. Allows cleaning personnel to get every inch of the floor without damaging product or appearance. Durable bases absorb impact from carts to prevent product damage. Select models can be moved with pallet jacks or forklifts (see table at right). More than 30 sizes and styles to fit your floor!

- **End Caps** are ideal for butting against racking or other displays
- **Display Bases** can be used to build islands for spot merchandising
- **Side Stacks** feature a narrow footprint to flank end caps

**HELPS YOU COMPLY** with FDA Food Code, HACCP Plans and more

MCH107

Pallet jack compatible models let you build displays back of house and wheel them to the front.

### MORE COLORS!

Meet food segregation regs or match your brand look with color-coding and graphics. Details on page 11.

## MW DISPLAY & FILLER CUBES

### Versatile “building blocks” go on floors or countertops.

Add a back row of cubes to your Bases, End Caps, Highboys and more for attention-getting, multi-level displays. Cubes can also be used as standalone solutions on countertops or floors where a smaller footprint is necessary. Stack multiple units to build creative layouts or use as back of shelf fillers to carry less inventory on retail shelves.

PLT100

## MW ADJUSTABLE PALLET & CORNER GUARDS

### Hide ugly pallets & prevent injuries.

Protective guards assemble in place with easy telescoping design to fit around standard wooden pallets. Prevents worker or guest injuries from nails and splintered boards; extends life of pallets by protecting against cart impact. Add Corner Guards (PLT104 — compatible with PLT100 only) for extended vertical coverage.

Telescoping design expands and contracts for a perfect fit.

4 sides included.

Built-in connector pins allow easy assembly.

MCH137

## MW HIGHBOY TABLETOP MERCHANDISERS

### Make any product more visible with Highboys up to 30 inches tall.

Large-footprint Merchandisers display your products at "tabletop" height for easy access and maximum visibility. Weight capacities range from 2,000–3,000 pounds so you can confidently store heavy loads. Slotted design promotes air flow (MCH141 has solid top). Add Risers or Tray for multi-level displays and special applications.

| MasonWays® Highboy Tabletop Merchandiser |            |                  |               |       |       |

SVC107

## MW AMENITY WASTE & WINDSHIELD CENTER

### All-in-one units offer waste collection and forecourt convenience.

The Amenity line features basic designs that blend in with most environments. Amenity I (SVC105) and Amenity II (SVC106) feature hand sanitizer dispensers, glove box holders and a separate trash liner that conceals bags for a professional appearance.

- Amenity I (SVC105) is single-sided
- Amenity II (SVC106) is double-sided for easy access from both sides
- Amenity Windshield Service Center (SVC107) lets you provide windshield service independently of trash collection

| MasonWays® Amenity Waste & Windshield Service Center                                      |                                   |                    |       |       |

SVC109

SVC108

## MW RHINO WASTE & WINDSHIELD SERVICE CENTER

### Stylish Service Centers meet drivers' needs and look good doing so.

The modern look of the Rhino line features attractive contours and side fluting to dress up your forecourt. Separate trash liner conceals bags while water bucket and paper towel dispenser are recessed into side of unit for a professional appearance. (SVC111 features extra-large, side-mount water bucket only).

- Hooded Top (SVC108) keeps out rain and snow, ideal for open areas
- Open Top comes in Single (SVC109) or Dual (SVC110) designs
- Truck Stop unit (SVC111) features an extra-large bucket and long-handle squeegee

## BOLLARD COVERS

### Get durable bollard protection in your choice of sizes.

Durable polyethylene shell resists impact, chemicals and UV light; holds 90% of its true color in constant sunlight for a period of five years. Cover slides over existing bollard for easy installation, and neoprene tape provides a vacuum-tight fit. Smooth, rounded finish won't snag clothing or hold grime. Heavy-duty covers feature ¼" -thick walls; PLS195 is available in three colors. Economy cover has ⅛" -thick walls and is available in yellow only.

#### HOW TO MEASURE YOUR BOLLARD FOR A COVER:

1. Measure exact bollard circumference with flat tape and divide by 3.14 for bollard diameter.
2. Find the most suitable bollard diameter range in the product information box.

**NOTE:** When purchasing multiple covers, measure each bollard to ensure that you are ordering the correct sizes.

#### Bollard Cover

## MW OUTDOOR MERCHANDISING CABINET

### Protect outdoor merchandise with all-weather, lockable cabinets.

Staging products outdoors can expose your inventory to wet weather and potential theft after hours. This Merchandising Cabinet covers both concerns with a weatherproof design that can also be locked at night. Ideal point-of-sale placement for automotive supplies, firewood, ice melt and other seasonal items.

Available in 1-door and 2-door models. Wire shelf included.

Folding doors can be secured with a padlock (not included).

### MORE COLORS!

Match your brand look or complement your building with colors and graphics. More details on page 11.

## MW STAIR STEP MERCHANDISERS

### Step up your merchandising impact at store entrances, inside and out.

One-piece molded construction is perfect for automotive supplies, firewood bundles and other products that can benefit from a heavy-duty, tiered display. Ideal for front of store placement or outdoors under a roof or awning to protect product. Popular 3-step model is three feet high and deep to maximize impact of your merchandising efforts. 2-step models also available.

## MW SMOKERS POLE

### Simple design saves space and controls cigarette waste.

Narrow pole made from powder-coated steel is more attractive than large, plastic smoking receptacles. Self-extinguishing, two-piece design comes apart for easy emptying. Heavy base plate offers stability; spacers on bottom keep unit off of ground. Small footprint won't take up much space at store entrances or designated smoking areas.

#### MasonWays® Smokers Pole

Add a Square Planter  
to accent your bench  
and complete the space.

## OUTDOOR BENCHES

### Accent your building's exterior and create a nice seating area for customers and guests.

Top-grade recycled plastic slats are durable and low maintenance; UV and moisture resistant material resists cracking and fading. All-plastic design won't rust or corrode like other plastic benches with metal legs; all styles have black legs. Each style is available in 4' or 6' lengths.

- Traditional Bench provides back support in a classic design that goes anywhere
- Malibu Bench features a contoured seat and backrest for comfort and style
- Classic Bench is backless for a sleek, modern look that can be accessed from both sides

# PIG ABSORBENTS

WORLD'S  
#1  
ABSORBENT  
BRAND

## World's first absorbent sock: The PIG that launched an industry.

In the early '80s, our founders were working hard cleaning up grease and grime in factories. The worst job was shoveling up the loose, oil-soaked clay around the bases of leaking machinery. The pellets stuck to everything, and when they started losing money on these jobs, they set out to find a better way to soak up the mess.

They cut up pantyhose and stuffed them with everything from sawdust to rice hulls. Then they placed these sausage-shaped things into pools of oil to see what would happen, but nothing worked. Finally, they tried ground corncob, and the world's first contained absorbent was born — the PIG Original Sock!

*"We have been using PIG Mats for years and find them to be much better than any other pad out there. We've done a side by side comparison several times and PIG Mat always outperforms the competitor. Don't use anything else!"*

— David, MAT240 Customer

Above: 1985. A photo of the "Pig Pen" and our first absorbent sock in its early stages.

**TRIED. TESTED.  
TRUSTED.**  
We test PIG Mat regularly, following strict ASTM and ISO standards.

## PIG SPILL KITS ARE FULL OF IT (PIG ABSORBENTS, THAT IS)

We pack every **PIG Spill Kit** to the top for maximum spill response power when you need it.

### Top 3 things that separate PIG Spill Kits from the pack.

Prepare for the worst with PIG Spill Kits to protect your facility and stay in compliance with OSHA and EPA spill preparedness regulations. Here's what separates PIG from the pack:

1

#### World's #1 Absorbents inside

PIG Mats, Socks, Pillows and Loose are the best you can buy — found exclusively in PIG Spill Kits.

2

#### Filled for fast response

We pack our kits in the order you need the contents, so there's no dumping or digging required!

3

#### Nobody offers more choices

From UN Rated salvage drums to grab-and-go bag kits, you'll find a Spill Kit that's a perfect fit.

**HELPS YOU COMPLY** with SPCC and Stormwater Regulations

## PIG FUEL STATION SPILL KIT

### Our best kit for truck stops and fleet fueling stations.

Tough, UN Rated container is packed with UV-resistant absorbents specifically made for gasoline, diesel and kerosene. Meets ANSI and MIL-SPEC standards for static decay. Reflective stripes on lid help drivers locate spill kits.

#### PIG® Fuel Station Spill Kit

| Item #  | 1-2          | 3-6          | 7+           |
|---|--------------|--------------|--------------|
| <b>KIT4002</b> • Absorbs up to 41.7 gal. • UN1H2/Y345/S   | <b>\$977</b> | <b>\$927</b> | <b>\$872</b> |

\* **WARNING:** Cancer - www.P65Warnings.ca.gov

NOTE: To ensure safety when using PPE, please consult chemical compatibility guide(s) at newpig.com to determine if PPE is compatible with your chemicals and fluids, or ensure compatibility with chemical manufacturer.

#### DID YOU KNOW?

**58%** OF FUELING AREAS WITH AT-RISK DRAINS DON'T HAVE A KIT WITHIN 300'

On-site fuel pumps, fuel tanks and backup generators tend to be located away from the main facility to avoid traffic. That's a long way to go for spill supplies in the event of an accident, so storing spill kits nearby is critical to protecting drains. Pro Tip: Get a spill kit that's UV-resistant.

## PIG OIL-ONLY SPILL KIT IN HIGH-VISIBILITY CHEST

### Big-spill capacity that still fits through doorways.

31"-wide chest fits through standard doors and aisles, plus it has forklift entry for easy moving. UV-resistant container keeps PIG Oil-Only Absorbents secure and dry indoors or out. Highly visible color helps you locate the kit faster, and the hinged lid is lockable.

KIT480

## MW EMPTY SPILL CENTER CABINETS

### Store your spill cleanup supplies right at the pump in these lockable, outdoor cabinets.

Easy-access front doors and highly visible "Spill Center" signage make these cabinets perfect for rapid response to fuel and oil spills. Fully enclosed design resists weather and chemical splashes. Single-door and double-door models available; both feature one interior shelf and a keyed lock to secure contents.

#### Just add PIG!

Fill with your own supply of PIG Absorbents, bioremediation, cleanup tools and personal protective equipment to minimize the impact of fuel island mishaps. Call 1-800-HOT-HOGS® for help stocking your cabinet!

Bright white color draws attention to leaks and shows saturation level during spill response.

MAT214

## PIG STAT-MAT PADS AND ROLLS

### The ONLY absorbent mat for fuels & solvents proven to dissipate static.

The best mat you can buy to reduce the risk of electrostatic discharge; a critical precaution around flammable liquids and vapors. Stat-Mat Pads and Rolls pass ANSI and MIL-SPEC standards for static decay and surface resistivity, making them perfect for fueling areas and solvent cleanup. Mat absorbs and retains oils and fuels but not water.

**HELPS YOU COMPLY** with 29 CFR 1910.106(e)(6)(i) for preventing the ignition of flammable vapors

★ = Best-Seller

Packaged in special bags that dissipate static charge buildup for sensitive environments; bright pink color is easily distinguishable to prevent improper use or pilfering.

## PIG UNIVERSAL PADS AND ROLLS

### Absorb just about any mess you need to clean up.

PIG Mat delivers the perfect balance of absorbency, retention and durability. By staying down longer and needing fewer changeouts, PIG Mat saves you time and money. When cheaper mats can't keep up and need constant replacing, those initial "savings" go right out the window.

Our best-selling gray mat soaks up all sorts of stuff, including hydraulic oil, acetone, coolants, propylene glycol and many other noncorrosive liquids. PIG Mat Pads are ideal for catching drips and soaking up spills; PIG Mat Rolls cover large areas and soak up leaks and overspray along equipment. Choose lightweight for small jobs and routine changeouts or heavyweight for bigger leaks and spills.

# FUEL SPILLS & STORMWATER PROTECTION

## WHO YOU GONNA CALL? STAIN BUSTERS!

Chris F.  
— Product  
Manager

### Why comply with Stormwater Regs?

Noncompliance with the EPA's Stormwater Regulations can result in hassles, headaches and even fines. If that's not enough reason to comply, protecting the environment also makes a positive statement toward being a good corporate citizen.

Does your facility need a Stormwater Plan? New Pig can help you choose the best products to get into compliance. Call our Technical Specialists at 1-800-HOT-HOGS for expert advice!

#### HELPS YOU COMPLY

##### SPCC 40 CFR 112.7

Facilities must have written plans and documentation of the products that are in place to prevent discharge of oil into waters.

##### STORMWATER 40 CFR 122.26

Facilities with an SWPPP must describe the plan and equipment available to prevent illegal discharge of pollutants into waterways.

### 3 ways PIG can help you control liquids:

## BLOCK

Protecting your drains is all about keeping unwanted liquids out. These tight-sealing products can help stop runaway liquids in their tracks.

See page 35

## FILTER

Water should be the only thing going down storm drains. Drain Inserts and other solutions capture pollutants before they enter your drain.

See pages 37–41

## CLEAN

Tackle oil and fuel spills, grease and more using environmentally preferred solutions instead of industrial cleaners and degreasers.

See pages 42–43

PLR906

PLR908

PLR940

Built-in connectors join multiple covers to protect longer trench drains.

## PIG DRIVE-OVER DRAINBLOCKER DRAIN COVER

### Go ahead and drive over it!

The toughest storm drain cover you can buy is the only one on the market that can handle driveovers — even from heavy tankers. The durable, long-lasting design withstands long-term outdoor use no matter what the weather brings. HogHyde rubber top layer resists stretching, ripping and tearing plus it withstands prolonged exposure to diesel and gasoline.

**HELPS YOU COMPLY** with 40 CFR 112.7 SPCC Regulations

**HELPS YOU COMPLY** with 40 CFR 122.26 Stormwater Regs

### NO RIPS, NO TEARS, NO WORRIES

Our toughest DrainBlocker can take whatever your parking lot dishes out.

### PUNCTURE RESISTANT

Stands up to debris and sharp objects.

### ABRASION RESISTANT

Won't wear down even when tires track on gravel.

### TEAR RESISTANT

Won't rip when you pick it up after deployment.

### UV & IR LIGHT RESISTANT

Made to take the baking sun in your parking lot.

# LET'S TALK TRASH.

## Floatables: What they are and what you can do about them.

Floatables are materials like food wrappers, bottles, cigarette butts and plastic bags that float in stormwater and get stuck in your storm drains. Not only are they unsightly, but they can get you in big trouble with inspectors if they get into the water supply and contaminate it.

PIG has a wide range of stormwater filtration products to help you remove floatables from stormwater and prevent them from entering your storm drains. That makes them easy to dispose of, and that means happy auditors and a happy environment! See our stormwater solutions on pages 37–41.

### HELPS YOU COMPLY

## PIG COIR STORM DRAIN FILTER PADS & ROLLS

### Trim-to-fit filter removes sediment and floatables from stormwater.

**NEW!** Captures most floatables and large pieces of sediment; natural coconut fibers are densely woven and vertically oriented to maximize sediment removal and flow rate. Trim to fit for customization to your drain, then rinse and reinstall for extended use. Pads are great for standard drains; use Rolls for trench drains.

Installation kits (sold separately) include everything you need to properly secure coir filters in place.

**HELPS YOU COMPLY** with 40 CFR 122.26 when used as a BMP in a Stormwater Pollution Prevention Plan

INT400-1059-MOF

Adjustable frames fit a wide range of drain sizes.

INT400-1110-MOF

## PIG ADJUSTABLE STORM DRAIN FRAME WITH REPLACEABLE FILTERS

**Keep the frame in your drain and just replace the filter — sizes & styles for every application.**

**NEW!** Filter replacement is an easy, one-person job, plus you save money because you're not disposing of the entire drain insert. Coated-steel adjustable frame adds strength and secures system in place, so you'll never have to fish out a failed insert again; stays in place even when grate is not installed. Replaceable Filters feature a heavy-duty lifting strap for easy changeouts. Hi-viz straps help inspectors see from a distance, even with grate in place, that you're proactively managing your stormwater. Overflow ports minimize water backup, and patented filter ring channels water to center of filter.

### A CLOSER LOOK

Sturdy frame mounts inside drain to hold filter.

Hi-viz straps are easy to handle & easy to see.

**10-Second Changeouts!**  
Replaceable filter removes contaminants from runoff.  
(Heavy Metals version shown)

Adjustable frame expands & contracts to fit your drain.

NEW DESIGN!

## A LOOK INSIDE OUR STORM DRAIN FILTER

**Stage 1** – Fabric shelf starts removing pollutants immediately.

Adjustable frame holds filter in place.

**Stage 2** – Filter ring pulls oil from stormwater and channels runoff into collection bag.

Overflow ports prevent blockage.

**Stage 3** – Collection bag.

**Stage 4** – Filter strips act like tentacles to remove hydrocarbons.

Oils, fuels, sediment and floatables version shown. Sediment and floatables versions don't have filter strips.

## PIG ADJUSTABLE FRAME STORM DRAIN FILTER

## No matter what shape or size your storm drain is, we have a filter for it.

Steel frame can be expanded or contracted to perfectly fit your drain, and it stays put even when the grate isn't installed. The frame adds strength and secures the filter in place, so you'll never have to fish out a failed insert again!

Heavy-duty lifting straps allow easy handling, they serve as a visual reminder for on-site maintenance and the high-visibility green color helps inspectors see from a distance, even with the grate in place, that you're proactively managing your stormwater.

**HELPS YOU COMPLY** with 40 CFR 122.26 Stormwater Regulations

PIG FRAMELESS STORM DRAIN FILTER

If you don't want a frame on your filter, this model is tried-and-true.

Frameless filter has the same construction and four-stage filtration as shown on page 40. Redesigned for better filtration, improved handling and all-around performance, and affordably priced so you can protect more drains at your facility. No more picking and choosing which ones you can afford to protect! Frameless design is ideal for round and shallow drains to capture fuels, oil, sediment and floatables to keep storm drains from clogging and overflowing.

**HELPS YOU COMPLY** with 40 CFR 122.26 Stormwater Regulations

# OILY MESS? OUR MICROBES SEE A MEAL.

## **PIG** BIOREMEDIATION

**Eliminate oils and fuels in a variety of places without harming the environment!**

Sometimes oils and fuels can show up in places where they shouldn't. Now you can remove them using natural solutions instead of cleaners and degreasers that contain harsh chemicals. Those cleaners and degreasers can't be allowed to enter waterways or groundwater systems — check Section 6 of their SDS to see the warning!

PIG Bioremediation Products are specifically designed to clean up oils, fuels, and grease without leaving harmful byproducts in the environment. BioBreaker™ microbes digest the hydrocarbons and convert them into water and harmless gases, so no containment or cleanup is required.

We've got bioremediation options for nearly every area of your store, indoors or out.

### DID YOU KNOW?

**95%** OF STORM DRAINS ARE AT RISK FOR OIL SHEEN RELEASE.

Your parking lots are a catch-all for oil and other vehicle fluids. Stains throw off oily sheens every time it rains, sending polluted runoff into your storm drains.

*Data provided by our patented Spill Risk Algorithm.*

## TRIPLE AWARD WINNER!

## PIG MICROBIAL OIL STAIN REMOVER

Gradually remove oil and fuel stains from pavement and concrete to eliminate rain runoff and sheen emissions. Apply with a manual sprayer and light agitation or a pressure washer. Dilute 1:15. Great for parking lots, docks, dumpsters, compactors and more.

CLN888

**2023 Plant Engineering  
Product of the Year  
Gold Award**

**2023 OH&S Industrial  
Hygiene Award Winner**  
Health and Safety/Cleanup

**2022 Environmental  
Protection**  
New Product of the Year

PIG MICROBIAL OIL REMEDIATOR  
FOR SOIL, GRASS AND WATER

Remove oil and fuel from soil, grass and water to eliminate rain runoff. Must be diluted 1:10; each diluted gallon remediates approximately one cubic yard of soil or 200 gallons of water.

CLN935

PIG OIL REMEDIATOR FOR SOIL,  
GRASS AND WATER

Enzymes in the liquid act as "food" for microbes that occur naturally in the environment. Simply spray onto oil spills — no dilution is needed.

NOTE: Does not contain microbes.

CLN951

PIG MICROBIAL OIL STAIN  
REMOVER AND ABSORBENT

Comes in powder form; spread on oil and fuel spills to absorb them. After absorption, add water to activate microbes that will "eat" the hydrocarbons. Ideal for docks, dumpsters, parking lots and more.

CLN937

PIG MICROBIAL FOOD PROCESSING  
OIL REMEDIATOR

Gradually remove hydrocarbons as well as animal and vegetable grease, oils, fats, lipids and starches from food processing environments. Dilute 1:15.

CLN939

PIG MICROBIAL OIL REMEDIATOR  
FOR GREASE TRAPS

Digests grease, fats and organic wastes that accumulate in grease traps and drain lines to prevent backups and overflows. Also helps to reduce the need to pump grease traps and reduces odors associated with maintenance of traps.

CLN962

PIG MICROBIAL OIL-WATER  
SEPARATOR REMEDIATOR

Significantly reduce hydrocarbon contamination in oil-water separators and interceptors. Eliminates hydrocarbon accumulation that causes backups which can interrupt production at your facility.

CLN941

PIG MICROBIAL OIL REMEDIATOR  
FOR SEPTIC SYSTEMS

Break down and eliminate hydrocarbons plus food and vegetable grease, oil, starches and lipids to keep your septic system working optimally. Use monthly as a preventative maintenance procedure. Dilute 1:10.

CLN943

### THE PIG DIFFERENCE

PIG Leak Diverters are engineered to outperform cheap tarp-and-hose contraptions:

#### EASIER, SECURE HANGING

Multiple grommet points help maintain funnel shape.

#### STRONGER MATERIALS

No sagging or drooping so water won't spill over.

#### BETTER SHAPE FOR MAX FLOW

Pinched corners direct water flow to center of tarp.

#### FASTER DRAINING

Built-in debris cage stops clogs to keep big leaks flowing.

## PIG Leak Diverters are the solution to help you weather the storm.

No facility is immune to the threat of overhead water hazards. Sometimes they're weather-related problems such as a leaky roof. Other times, they're an operational problem such as ruptured pipes or equipment condensation.

The benefits to having diverters on hand are endless! They'll help prevent facility water catastrophes before they happen, keep floors dry and safe, and prevent ruined equipment, inventory, lost production time and even possible injuries.

**PIG Leak Diverters** are engineered better than others, and include:

- ✓ Anti-clog drain filters
- ✓ RF welding technology for leakproof seams
- ✓ Heavy duty PVC that eliminates tears and punctures
- ✓ The perfect shape for superior water flow
- ✓ More stability thanks to more hanging points

**HELPS YOU COMPLY** with FDA Food Code and HACCP Plans. More info on page 62.

### HOW IT WORKS

## PIG ROOF LEAK DIVERTER

# Help protect people, equipment and inventory from roof leaks.

PIG Leak Diversers hang easily in problem spots to catch roof leaks and channel them to a floor drain or container. They're great for quick response to avoid downtime and keep floors safe while you're waiting for repairs to be made. Nonpermeable tarp is strong and durable; resists punctures, UV rays and mildew. Accepts a standard 3/4" hose connection to channel liquid. Choose a size and color below — and don't forget to add your straps and hose!

The flexible hose channels the leak to a floor drain or collection container.

TLS461

Hang the diverter from a single point near the leak, remove cover, pop diverter open.

TLS461

## PIG UMBRELLA-STYLE LEAK DIVERTER KIT

**Pop open the fastest solution you can buy to catch a roof leak.**

Hang the hook from a single point near the leak, pull off the cover and it opens like an umbrella. All-in-one kit is perfect for quick response to prevent damage to inventory or equipment and to avoid slip hazards.

Flexible 10'L PVC drain hose included with TLS461 or 25'L hose included with TLS903 channels leaks to a floor drain or collection container. 3/4" drain fitting accepts longer hoses. Nonpermeable tarp is vinyl coated for strength and durability; it resists punctures, UV and mildew to last multiple deployments. Tapered sides help funnel liquid toward center for better drainage. Three colors available: yellow draws attention; clear shows liquids and lets light pass through; translucent shows liquids and blends in with white ceilings.

**HELPS YOU COMPLY** with FDA Food Code and HACCP Plans. More info on page 62.

### PIG® Umbrella-Style Roof Leak Diverter Tarp Kit

(Specify Color: ☒ Yellow ☐ Clear ☐ Translucent)

Container collects channeled leaks.

TLS667

TLS121

Attached 25' L hose channels liquids to a drain or container.

TLS367

### PIG CEILING TILE LEAK DIVERTER

## Replace damaged ceiling tiles with a discreet, professional-looking diverter.

Channel away liquids to minimize wet floors, damaged equipment and disturbance to workers. Replaces any standard 2' x 2' or 2' x 4' drop ceiling tile until you have time to find and fix the leak. Includes drain hose and clips to secure hose to ceiling grids. After leak has been repaired, simply uninstall the diverter and store for later use.

**HELPS YOU COMPLY** with FDA Food Code and HACCP Plans. More info on page 62.

| PIG® Ceiling Tile Leak Diverter |       |       |

TLS665

### PIG CEILING TILE ABSORBENT PAD

## Absorbent pad prevents drips from destroying ceiling tile.

Multi-layer absorbent pad rests on top of your ceiling tile to catch minor drips and leaks. Low-profile pad won't interfere with above-ceiling structures or cause tiles to sag and break. Poly backing prevents absorbed liquids from discoloring the ceiling tile.

| PIG® Ceiling Tile Absorbent Pad  |      |      |
|--|------|------|
| Item #   | 1-3  | 4+   |
| TLS666 • Heavyweight • 23"W x 48"L • 10 pads/box<br>Absorbs up to 5.9 gal./box   | \$83 | \$79 |
| ★ TLS665 • Heavyweight • 23"W x 24"L • 20 pads/box<br>Absorbs up to 5.9 gal./box | \$75 | \$72 |

### PIG ABOVE-CEILING LEAK DIVERTER

## Catch the leak and channel it away before it damages your tile.

Assembles in less than five minutes and remains completely out of view while it diverts ceiling leaks to a drain or collection container. Mounted on a lightweight, sturdy frame that sits on suspended 2' x 2' or 2' x 4' acoustical tile. Heavy-duty vinyl-coated tarp resists punctures, UV and mildew so it can be used over and over again. Captured liquid drains through a 1/4" port into the attached 25'-long PVC hose; flow rate of one gallon per minute.

| PIG® Above-the-Ceiling Leak Diverter                              |       |       |

Bright colors and small footprint are perfect for high traffic areas.

## PIG HIGH REACH LEAK DIVERTER KIT

### Here's a solution when you can't hang a diverter from the ceiling.

Quickly route small leaks from high ceilings in hard to reach areas. Diverter captures drips from ceilings up to 15 feet high without risk of splash-out; use included mat pad to catch splashes from ceilings higher than 15 feet. Adjustable telescoping pole allows easy installation without the need for a ladder. Included pail has a removable plug to allow the drainage hose to be inserted without removing the lid.

PIG502

### PIG UV-RESISTANT ABSORBENT SOCK

**Direct sunlight and mildew are no problem for these absorbent socks.**

**NEW!**

Flexible socks absorb leaks, drips and condensation from under freezers, coolers and equipment and they help contain greenhouse/greenhouse watering messes. 100% polypropylene filler and skin resist the growth of mildew, plus the skin resists UV rays for up to one year. When absorbing water, socks can be air-dried and reused 1–3 times.

Clip-&-Fit version allows you to customize the length of your sock by clipping ends with included cable ties and cutting the material to size.

PIG500

PIG105

### PIG MILDEW-RESISTANT WATER SOCK

## Deploy long-term, air-dry and reuse!

Flexible socks absorb water from under freezers, coolers and equipment. Polypropylene skin and filler resist the growth of mildew so they can be left down long-term. To reuse, simply air-dry and redeploy or squeeze water from socks for faster results. Choose yellow for high visibility or blue to blend in with surroundings.

NOTE: Not for use in direct sunlight.

PIG105

*"We bought four absorbent socks to help defrost a dorm-size refrigerator we have under our coffee bar. We put two socks inside the refrigerator and two socks outside. Voilà! No damp mess on the floor this time."*

— Bernadette, PIG106 Customer

Vacuum not included.

### PIG SILICONE WATER VACUUM BARRIER

## Attach to your wet/dry vac to contain and capture water at the same time.

Cleaning up large volumes of water from routine washdowns and minor flooding just got easier! Place this barrier on the floor, attach to your wet/dry vac, then squeegee water toward it. Watch as 11 ports in the bottom of the barrier suck water up quickly. Directing water toward this 6' long barrier is easier than trying to guide it to a floor drain or pump, and it provides a backstop to prevent water from going where you don't want it to.

This barrier eliminates the hassle of priming a pump or having a pump motor fail from dry running. It's reusable and cleans easily with soap and water. Works with most standard wet/dry vacuums — no special equipment needed.

### PIG WATER MAT

## The ONE mat to stock for cleaning up water problems.

PIG Water Mat has superfast wicking that helps you quickly eliminate puddles to prevent damage, slips and falls.

Be prepared to soak up water that comes in from roof leaks and seepage through doors and docks, cracked foundations or open windows. Absorb excess water in food service, food processing and other critical areas where standing water is prevalent. And deal with water from maintenance and system breakdowns, including burst or leaking pipes, broken hoses, leaking equipment and cleanouts.

Wring and re-use during a single water spill cleanup, then dispose. Cleaner than dirty mops, rags and towels, which can recontaminate floors by spreading bacteria, mold and odors.

## PIG RESTROOM GRIPPY MATS

**Antimicrobial mats stay put to fight odors and prevent floor damage.**

Restroom Grippy Mats are shaped to fit and permanently infused with antimicrobial technology to prevent the growth of odor-causing bacteria and mold on the mats. Whether you clean with a mop, broom, vacuum or floor scrubber, these mats won't move and the adhesive won't transfer to your floor.

### PIG HOOFTRAX ADHESIVE-BACKED RUNNER

**Perfect for adding traction in wet areas where you don't need absorbency.**

**NEW!**

Keeping floors dry isn't always part of your gameplan, but that doesn't mean you have to sacrifice floor safety. PIG HoofTrax Runner is the perfect non-absorbent solution for wet areas that just need traction; anti-slip properties provide remediation for floors that are otherwise potential slip hazards.

Vinyl runner is easy to clean with mops and floor scrubbers, and it won't interfere with facility cleaning services. Crystal clear properties help you meet cleaning, sanitizing and hygiene standards, making it easy to inspect for dirt, mold and bacteria. Peel-and-stick application adheres to VCT, ceramic tile, laminate, marble, sealed stone and more, and when it's time to replace, the runner peels up with little to no residue left behind. Plus, it's ADA compliant for wheelchairs and walkers. Product life is up to 3 to 12 months, depending on traffic and conditions.

**Sand Texture**

Gritty, non-abrasive surface provides excellent traction.

**New Pig Adhesive-Backed Mat Notice:** New Pig Adhesive-Backed Mats are formulated to work with most common hard-floor surfaces. New Pig Adhesive-Backed Mats are not intended for use on wood flooring with stains, finishes, or coatings. New Pig Adhesive-Backed Mats have non-permeable barrier layers to prevent liquid pass-through & as such, are considered to be non-breathable & may not be suitable for use on surfaces that require air curing, including, but not limited to, newly poured concrete or recently applied coatings, sealants & finishes. All adhesive mats have some potential to leave residue, lift and/or discolor 1) surface finish, 2) surface coating, 3) paint, 4) loose or pre-damaged tiles. For these reasons & others, if you have questions about the suitability of New Pig Adhesive-Backed Mats for your application, test a small section of mat in a discreet or non-critical area before using on larger areas. New Pig Adhesive-Backed Mats are designed for use for up to 3-6 months in commercial and general public environments, depending on conditions & traffic patterns. Regardless, New Pig Adhesive-Backed Mats should be replaced immediately if they show signs of wear or damage & should always be replaced in commercial and general public environments no later than 6 months after installation.

CUSTOMER ASSUMES THE RISK THAT A NEW PIG ADHESIVE-BACKED MAT MAY DAMAGE OR ALTER CUSTOMER'S EXISTING FLOORING OR FLOOR COVERING. NEW PIG PROVIDES NO WARRANTY OF FITNESS FOR A PARTICULAR PURPOSE & NO WARRANTY THAT THE USE OF AN ADHESIVE-BACKED MAT WILL BE ACCEPTABLE FOR USE ON CUSTOMER'S FLOORING OR ANY OTHER SURFACE. NEW PIG SHALL HAVE NO RESPONSIBILITY FOR & CUSTOMER HEREBY RELEASES & DISCHARGES NEW PIG FROM ANY DIRECT, INDIRECT, INCIDENTAL OR CONSEQUENTIAL DAMAGES TO OR RELATED TO CUSTOMER'S FLOORS, FLOORING MATERIAL, OR ANY OTHER SURFACES IN CUSTOMER'S DWELLING OR FACILITY. CUSTOMER IS SOLELY RESPONSIBLE FOR DETERMINING THE FITNESS & APPROPRIATENESS OF THE USE OF A NEW PIG ADHESIVE-BACKED MAT IN CUSTOMER'S DWELLING OR FACILITY.

# Introducing PIG TuffGrit Mats

**Nothing comes close to the long-lasting traction of PIG TuffGrit Mats.**

Tired of grit coatings that wear thin, go bald and lose their grip? Our new line of high-traction TuffGrit Anti-Fatigue Mats and Anti-Slip Runners are built to outlast the competition, and we've got the testing to prove it.

We ran head-to-head tests against the leading competitors' mats, and the results are *tuff* to argue with. Look below to get the nitty gritty on how they performed.

**GRIT SO TOUGH,  
IT OUTLASTED  
OUR TESTING!**

**UP TO  
11x  
MORE DURABLE  
THAN THE LEADING  
COMPETITOR**

## GRIT-IN-THE-BOX TEST

We dumped the shipping containers for TuffGrit Drainage Mat and the leading competitor to see what fell out...

**Brand X: FAILED**

The grit that's supposed to be keeping you safe doesn't stay on the mat.

**TuffGrit: 99.9% INTACT**

Almost all our grit stays on the mat, which helps you stay on your feet.

## RECIPROCAL ABRASION TEST

We tested TuffGrit Diamond Plate Mat and the leading competitor on our Abrasion Testing Machine...

**Brand X: FAILED**

Their grit was gone and raw rubber was exposed after just 7,400 passes.

**TuffGrit: 11X LONGER**

We stopped the test after 82,000 passes and still no signs of wear!

## PIG TUFFGRIT DIAMOND PLATE ANTI-FATIGUE MAT

**We just raised the bar for non-slip anti-fatigue mats.**

Some mats give you grit, some give you a diamond plate texture — this mat doubles down on safety with both! Our TuffGrit™ coating lasts *eleven times longer* than the leading competitor's grit coating in dry environments, and *seven times longer* under oily conditions. Plus, it's engineered to leave no grit behind, making it safer than other mats that lose their grit.

Exceeds ANSI standards for high slip resistance, even in wet areas and applications with light overspray or oily drips (not for use in standing water/oil). More than a half inch of PVC foam relieves stress on knees, feet, ankles and back from extended standing.

*For use in areas with light splashes of water, oil, grease and chemicals.*

**Diamond tread  
plus TuffGrit™  
traction**

## TUFFGRIT MODULAR ANTI-FATIGUE DRAINAGE MAT

### Build custom layouts in work areas with high volumes of water or oil.

Proprietary TuffGrit™ coating easily outlasts the competition and exceeds ANSI standards for high slip resistance, providing extreme traction even in wet or oily environments. Plus, it's engineered to leave no grit behind, making it safer than other mats that lose their grit.

Modular design lets you attach multiple 3' x 3' mats and Beveled Edges (all sold individually) to create custom layouts. Large drainage holes channel liquids to prevent pooling and minimize slip hazards. Heavy-duty nitrile rubber resists a wide range of oils and industrial fluids. Relieves stress on knees, feet, ankles and back from extended standing.

*Ideal for continuous water, oil and grease contact, as well as light chemical splashes.*

## PIG TUFFGRIT COMFORT ANTI-FATIGUE MAT

### Long-lasting TuffGrit™ surface provides long-term safety.

TuffGrit™ coating is incredibly durable and abrasion resistant; no other grit coating on the market lasts longer. Exceeds ANSI standards for high slip resistance, far better than tapes or paints. Provides extreme traction even in areas with light overspray and oily drips (not for use in standing water/oil). Engineered to leave no grit behind which is safer than other mats that gradually lose their grit.

Blend of comfort and traction is ideal for finishing stations, assembly lines and other work areas. 3/8"-thick PVC foam relieves stress on knees, feet, ankles and back from extended standing.

*For use in areas with light splashes of water, oil, grease and chemicals.*

### PIG COMMERCIAL KITCHEN NITRILE DRAINAGE MAT

## The best rubber floor mat to combat grease, oils and fats.

100% nitrile rubber provides superior resistance to heavy grease, oils and animal fats which is ideal for kitchens, bars, food processing facilities and other grease-prone areas. Contains anti-microbial agent that inhibits the growth of odor-causing bacteria and fungus. The low profile and beveled edges help prevent trips and falls while the drainage holes help to prevent pooling and slipping. Ideal for continuous water, oil and grease contact as well as light chemical splashes.

Mat adds  
traction in  
high-risk areas

### PIG COMMERCIAL KITCHEN RUBBER DRAINAGE MAT

## Traction and drainage make this mat ideal for light or moderate oil.

Drainage holes let liquid drip through to help avoid pooling and slipping, plus the low profile and beveled edges help prevent trips and falls. Nitrile rubber blend provides resistance to light or moderate grease which is great for kitchens, food prep, dishwashing and other areas. For use in areas with light splashes of water, oil, grease and chemicals. Available in 3' x 5' mat for small areas or three sizes of mat roll for large areas.

## PIG ROLL TOP HARDCOVER SPILL PALLET

### Protect your drums and IBCs from the elements with roomy roll tops.

Without containment, your leaks and spills are direct contaminants to the environment. Low-profile pallet with sump catches leaks while keeping drum tops and accessories within reach.

Weather-resistant design prevents contaminants from entering stormwater, and heavy-duty construction allows unit to be lifted by a forklift with drums in place. Polyethylene with UV inhibitors resists UV rays, rust, corrosion and most chemicals. Optional .75" drain plug lets you empty the sump without removing drums or grating. Doors and roll top can be secured with padlock (LCK901 and LCK902 sold separately at newpig.com).

In addition to the roll top, PAK601 features durable swing-out doors on the front for easy loading and unloading. PAK901 and PAK902 have swing-out doors on the front and the back to provide access from both sides. PAK902 provides protected storage and containment for IBCs up to 52"L x 52"W x 53"H.

## PIG SHOPREADY DISPOSABLE MICROFIBER WIPERS

### We've never met a tougher microfiber wiper!

**NEW!** Compact microfibers are engineered for superior durability in rough scrubbing and heavy-duty tasks without the "fluff" of standard microfiber cloths. ShopReady wipers have the right amount of loft to trap grease and grime but won't bleed out or contaminate clean surfaces as you keep wiping, whether you're using them wet or dry. Our wipers feature exact cut edges to eliminate fraying, shedding and unraveling, plus they're more durable, lower linting and have better retention compared to red shop towels.

Ideal for wiping rough surfaces in a wide variety of applications and available in multiple colors for color-coding different processes at your store. Pop-up boxes provide easy dispensing and storage while perforated rolls allow you to customize sizes.

### Unbeatable value!

Some brands give you half-filled boxes to look good on a shelf, but our ShopReady Wipers are stuffed to the max — you get 50 per box!

## The products and knowledge to help you comply with the FDA Food Code.

The safety and protection of food offered at grocery and convenience store settings is governed by the FDA Food Code. Learn how products like our Dunnage Racks, Display Bases and Leak Diverters can help you meet critical regulations and avoid fines.

### KEEP FOOD OFF THE FLOOR

*All food on premises must be protected in a clean, dry location free from splash, dust or other contamination AND located at least 6" above the floor. Applies to front and back of house.*

#### Products to help you comply:

Dunnage Racks, Display Bases, Merchandisers  
See pages 12–21

### COLOR-CODE FOOD STORAGE

*Raw foods, unless they're combined as ingredients, must be separated from everything else and each other. This applies during storage, preparation, holding and display.*

#### Products to help you comply:

Color-coded Dunnage Racks, Displays & Merchandisers  
See pages 12–21

### STOP OVERHEAD LEAK CONTAMINATION

*Food storage is prohibited under leaking water lines, condensation and other sources of contamination — including direct and indirect roof leaks that stain ceiling tile.*

#### Products to help you comply:

PIG Roof Leak Diverters, PIG Ceiling Tile Leak Diverters  
See pages 44–48

## RETHINKING FLOOR SAFETY

# PIG Grippy Mat & HoofTrax Runners meet ADA requirements where others fall short.

The Americans with Disabilities Act (ADA) states that walking surfaces must be **stable, firm and slip resistant**. If you're still throwing down bulky rubber-backed mats (a.k.a. rental rugs), your floor safety efforts could be non-compliant.

Here are three standards where old-school mats can fall short of compliance:

### ADA STANDARD 302.1

#### Must Be Stable

*"A stable surface is one that remains unchanged by applied forces, objects or materials."*

We've all seen bunched, rippled and curled floor mats and realize their potential for trips and falls. But they're even more hazardous for individuals using wheelchairs, walkers and other walking aids.

✓ **Grippy and HoofTrax lay flat and stay flat!**

### ADA STANDARD 302.2

#### Must Be Firm

*"If a backing, cushion or pad is used, it must be firm to not increase roll resistance."*

The firmer the floor safety solution, the lower the roll resistance. Old-school mats and other rugs with higher-pile construction require more force to propel a wheelchair, for rolling and turning.

✓ **Grippy and HoofTrax are incredibly low-profile!**

### ADA STANDARD 302.1

#### Must Be Slip Resistant

*A slip resistant surface minimizes hazards to people with disabilities.*

Other floor mats may provide some level of slip resistance, but only PIG goes the extra mile with ASTM testing to back it up. Wet or dry, our mats and runners pass with flying colors for floor safety you can trust.

✓ **Grippy and HoofTrax are Extremely Low Slip Risk!**

Check out PIG Grippy Mat on pages 8–10 and 54

Find HoofTrax on page 55

#### FLOORING SLIP RISK BY THE COEFFICIENT OF FRICTION

#### RESULTS FOR PIG HOOFTMAX

FINE TEXTURE — WET (69.5), DRY (73.4)

PEBBLE TEXTURE — WET (72.9), DRY (80.2)

SAND TEXTURE — WET (75.2), DRY (85.7)

#### RESULTS FOR PIG GRIPPY MAT

— WET (71), DRY (118)

We don't just say that our mats are extremely low slip risk — we have the data to prove it! We test to the ASTM E303-93R18 standard, and record the average coefficient of friction, under both wet and dry conditions.

## FREE BEACH COMBO

with any \$49 order!

Enjoy the sun and sand  
with this 34" x 60"  
beach towel featuring  
our pal, Willie B. Bacon.  
Pack the towel and  
more into our trendy  
15" L x 12.5" H silicone  
bag! Features a tip-  
proof design, non-slip  
bottom and comfortable  
carrying straps;  
waterproof and easy  
to clean.

Use the Promo Code from above  
when placing your order.

## EASY ORDERING!
